

ISO Bar Code Quality Analysis:

A. Email Report - Detailed analysis of your linear and/or 2-D bar code symbols to ISO 15415/15416, Gen Spec & MIL130M standards, using the ONLY GS1 EAN.UCC System Standards Certified Verifier on the market today. The INTEGRA 9500 Verification Report is emailed to your desktop, starting at \$50 for up to three codes.

B. Complete Report - Includes verification reports along with expert analysis of your codes. A full report is generated and shipped to your location. Starting at \$150 for up to six codes.

“Verification is the only way to ensure high quality readable bar code symbols...”

Bar Code Consulting & Quality Seminars:

New to bar coding? Let us help. A GS1 Certified EAN.UCC Bar Code Consultant from LVS will come to your site and work with you and your staff to improve your bar code quality.
